

Case Study | Montpellier House, Cheltenham

Main Contractor	Prime DCM Ltd
Contract value	£263K (mech only)

Neptune Building Services have recently completed a project with Prime DCM to supply and install plumbing and ventilation services to 30no. refurbished properties at Montpellier House, Montpellier Drive, Cheltenham

Neptune Building Services delivered a range of mechanical services for the Montpellier House refurbishment which included a boosted cold water distribution system, ensuring reliable water supply across all 30 properties. Hot water was provided through cylinders to efficiently supply hot water to various outlets throughout the apartments.

In addition to the above, a comprehensive ventilation system has been installed to maintain healthy air circulation in all areas. A key safety feature is the installation of a modern sprinkler system, enhancing fire protection throughout the building. These upgrades are designed to improve comfort, safety, and efficiency for the residents.
